Vehicle class:	907/910/eSprinter		
Please note:	This information bulletin with its contents is intended for international use and is not adapted to a specific country. Vehicle features and equipment options may consequently differ in individual markets, e.g. owing to type approval requirements. Please address any queries to the contact person for your market. We accept no liability for the accuracy or completeness of the information provided.		

Modell series 907/910/eSprinter-RWD: New Body/Equipment Mounting Directives for Mercedes-Benz Sprinter and eSprinter available in the Bodybuilder Portal

We would like to inform you that for the Mercedes-Benz Sprinter and eSprinter the new "Body/Equipment Mounting Directives for Vans Sprinter Edition AeJ2026_1a" is now available in German and English languages.

With the publication of these legally binding editions of the Body/Equipment Mounting Directives for Vans, Sprinter edition AeJ2026_1a, as at 4/1/2026 in the Bodybuilder Portal for Vans, the previous edition becomes invalid. The new edition must be observed from the time of publication. However, contractual agreements have priority.

The latest news can also be found on our website for upfitters on
